Dr. Eicke Weber is the director of the Fraunhofer Institute for Solar Energy Systems (ISE) and a professor of physics and applied sciences at the Albert-Ludwig University of Freiburg, Germany. Leading a staff of over 900 people at Fraunhofer ISE, he directs the largest solar energy research institute in Europe

Dr. Weber received his doctorate in Physics in 1976 and his habilitation in 1983 from the University of Cologne. Between 1983 and 2006 he was on the faculty of the Department of Materials Science and Engineering of the University of California, Berkeley. In 1991 he was made a Professor of Materials Science and in 2004 elected as chair of the Nanoscale Science and Engineering Graduate Group. In 2006 he received the Award of Merit (Bundesverdienstkreuz am Bande) of the German President. In 2010 he became a member of acatech, the German Academy of Science and Engineering.

"I am very pleased to have Dr. Weber on our board. His knowledge and enthusiasm for the solar industry will help chart the future success of PSE", said Andeas Haberle CEO of PSE AG.

Dr. Weber joins the current board which includes Dr. Volker Wittwer (Chair) and Dr. Joachim Luther.

About PSE

PSE AG is a solar technology company with specialized expertise in solar testing methods and solar knowledge management. PSE delivers turnkey solar testing facilities, conducts solar consulting projects, and manages solar conferences. PSE is a spin-off of the Fraunhofer Institute for Solar Energy Systems (ISE).
